

It is our belief that short-cuts and gimmicks can never replace long-term, consistent preparation. Elite's curriculum is geared towards academic confidence and a solid intellectual foundation. Many of our students have been attending the Academy since third grade, going through courses one level at a time. By the time they become Juniors in high school, the years of consistent preparation will have eliminated the need for last minute cramming.

Elite Academy offers a diverse curriculum to suit any student's needs:

- Math, English, Science, and Writing classes for grades three through twelve
- SAT and PSAT
- SAT Subject Tests (Chemistry, Biology, and Physics)
- Writing courses: Elementary, Intermediate, Advanced and guidance with college admission essays
- Reading courses: Elementary, Intermediate and Advanced
- Entrance examination preparations for Hunter College High School and the New York or New Jersey specialized High Schools: Bronx High School of Science, Brooklyn Technical High School, Brooklyn Latin School, Fiorello H. LaGuardia High School of Music & Art and Performing Arts, High School for Math, Science and Engineering at City College, High School of American Studies at Lehman College, Queens High School for the Sciences at York College, Staten Island Technical High School, Stuyvesant High School, Bergen Academy (NJ)

- Advanced math research courses that prepare students for the American Mathematics Competition (AMC), MATHCOUNTS, PLUS. (Calculus is concurrently taught in some of these courses.)
- Preparations for SSAT, ISEE, Terranova, NJASK, and other standardized tests

The comprehensive curriculum provides flexibility in meeting the needs of students. For example, if a student excels in Math but needs special attention in English, the student can be placed in different levels for the two subjects.
